4. New Church Construction Project

Project is proceeding as expected. The wet weather has been delaying the concrete pours. Masonry and foundations are scheduled to start next week. We are still waiting for JCP&L to move two poles so that the site work can continue. Four contracts are waiting for signatures from Bishop Smith. There is a change of location for the water for the sprinkler. The 20,000 gallon tank will now be in a building and not a swimming pool as was considered. The building could also be utilized for a tractor and ground maintenance. John explained the details behind this change.

The meeting ended at 8:17 PM.
